UNIVERSITY

Acknowledgments

The Learning Commons @ Paterson Library has been made possible by the generous contribution of the Ontario Government's Strategic Capital Infrastructure Program administered by the Ministry of Training, Colleges and Universities. The University received \$13 million, of which \$1.2 million was allocated to The Chancellor Paterson Library for renovations and the creation of a learning commons.

Enhancements to technology were made possible through student contributions to the Lakehead University Computer Enhancement (Technology) Fee.

Architect for the project:

Leonard Alfred Wood, Architect
