A university is a forum for the exchange of knowledge.
A university is a group of buildings.
A university is a playground for fun and frolic.
A university is a spirit which spurs men on past the limit of endurance to create. Our university began as Lakehead Technical Institute, blossomed into Lakehead College of Arts, Science and Technology reaching its pinnacle as Lakehead University. This task needed men like Dr. H. S. Braun, Dr. W. G. Tamblyn, Sen. N. M. Paterson and the late Messieurs T. W. Page and P. Ubriaco and others, for the list is endless. To these men and women Nor'Wester '68 is dedicated.

The University Centre building is the main stay of student-life. Housed within its confines are student offices, cafeterias, a theatre and a lounge.

The Quadrangle is the original academic block of the University. It is slowly being taken over by the administrative staff as other facilities for academics are made available.

A modernistic sculpture by Gustav Weisman graces the foyer of the university's newly completed $2,500,000 library.

By the fall of 1968 this co-educational residence will be augmented by a new 240 bed complex. The following year, a university village will have been set up with a total of 480 new beds housed in eight to ten new three story buildings.

# The Chancellor

To write a few words for the Nor'Westor, I feel gives me an opportunity to give a word of caution to undergraduates and perhaps the facuty as well.

One must always remember universities must be financed and to hold government and private confidence and backing, each member must uphold the dignity and high standard demanded. To lose the confidence of government and public is almost fatal. So, always conduct yourselves in that honourable high standard needed to give Lakehead University your very best effort.

Chancellor,

# Message From The President

A Yearbook is a lifelong addition to your personal memorabilia . . . Many years from now you will find yourself glancing at the pages of this volume, remembering old faces and special moments that made 1967-68 a memorable one at Lakehead University. I hope that you will recall with pride your academic and other achievements and will have forgotten the difficulties that might have been encountered.

I would like to thank, on behalf of all the University, the members of the A.M.S., and the S.A.S., the various clubs and other groups within the University that have meant such a great deal to our general well-being. We are all aware of the time and effort that is required by these various positions and are deeply appreciative of the effort that has been made to enrich the University generally.

While athletic and social activities are vital parts of student life, the University stands or falls by the vigour and integrity with which its members pursue knowledge. It is the pursuit of knowledge which unites people of different capacities, tastes, and temperaments into the community known as a University.

This spirit of enthusiasm and co-operation has been and will continue to be a vital factor in the growth and development of our University. It was apparent this past session in the increased activity of the various clubs and organizations on campus and the interest in speakers and seminars. This is an indication that you were eager to pose questions to yourselves and to the political and economic institutions of our day.

To those of you who are graduating this year or leaving to further your education elsewhere, it is my deepest hope that we have engendered in you the capacity to search for meaningful answers to the questions and problems of today's changing world.

If there is a single task that should challenge you today, it is to improve the conditions of mankind on earth, to liberate Man from his ancient servitudes and to provide for Man a human environment in which he can truly manifest his dignity and practice his freedom.

Ours is a time of great change, of revolutionary ideas, of new knowledge in every discipline. Can we not bring this new knowledge to solve our greatest problem—"condition" of Man? Should we pioneer in space and be timid on earth? Must we break the bonds of earth and leave man in bondage below?

None of us have written the script for the condition of mankind today. But we can, if we really believe in freedom and human dignity, help create in our day a new condition of mankind, a situation in which human freedom and dignity are at least possible and not a bitter travesty. Never before in the history of mankind has this been possible. The vast majority of mankind has ever been hungry, diseased, ignorant, poor and badly housed. The great glory of science and all knowledge in our day is that now it provides the means of relieving this ancient human bondage, these cruel forms of universal human slavery.

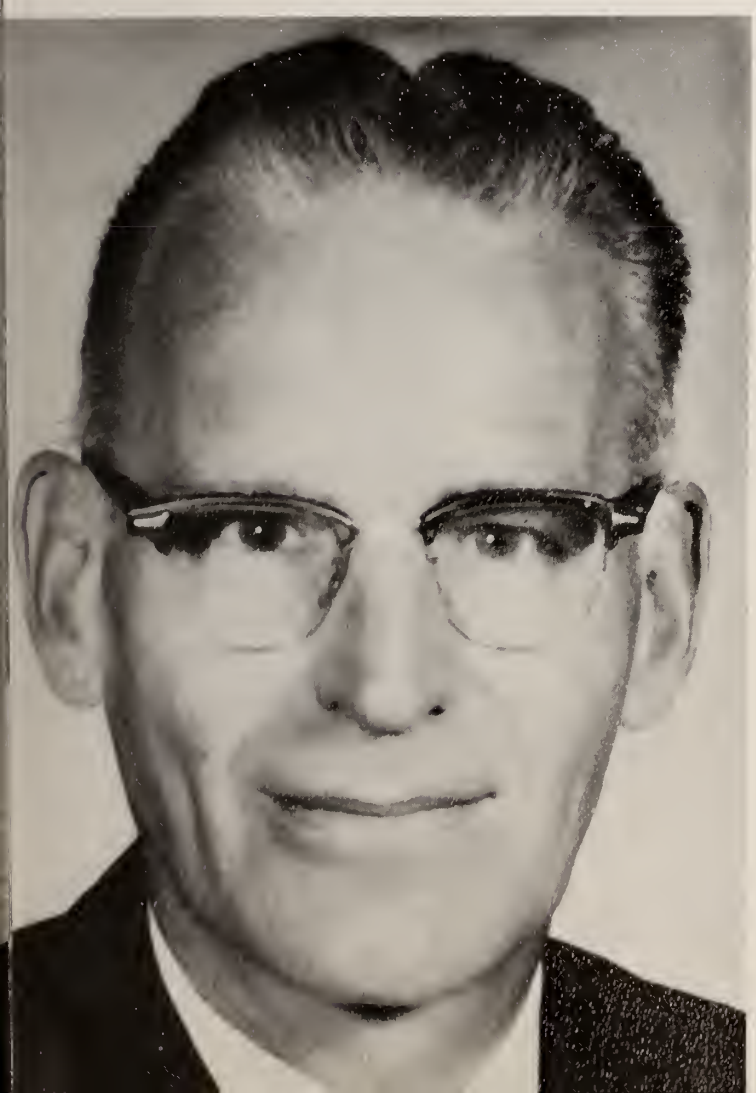
Mr. Peter Ubriaco

Mr. Peter Ubriaco, Superintendent of Buildings died on June 6 at the age of 47.

Mr. Ubriaco was well known and very well liked by his associates and had many friends among the student body. He showed his sincere interest and dedication to our University by establishing in 1965, the "Frank P. Ubriaco Memorial Scholarship" with an annual value of $250 in memory of his father. He also donated the trophy awarded annually to the Lakehead University Squash champion, and a painting which now hangs in the library building.

Mr. Ubriaco was an employee of the University for a period of three years.

—Argus, June 29, 1967.



Mr. T. W. Page

Professor Trevor Page died Oct. 22 as a result of a fire in his home.

Born October 15, 1914 in Victoria B.C., Professor Page graduated from the University of Idaho with his B.Sc. in Geology and Engineering in 1940.

Mr. Page joined the faculty of the Lakehead College of Arts, Science and Technology in 1950, after 10 years experience in Canadian industry as a Mining and Consulting Engineer.

A member of the Association of Professional Engineers of Ontario, and the Canadian Institute of Mining and Metalurgy, Mr. Page received a research grant in 1961 from the Geological Survey of Canada.

Mr. Page was one of the senior members of the faculty of Lakehead University.

# President's Message

The 1967-68 year at Lakehead has proven one thing without a doubt—the University is growing up! And with this period of maturation, we have experienced inevitable growing pains. Never before in our short history have so many students become involved in student government. Never before have they stood up and questioned their rights, their positions, and their obligations.

In many ways it was a year of unrest. But out of this has grown a more powerful student awareness and surely this pattern will lead to an even more active interest in student government in years to come.

This past year we have seen a tremendous change in attitude of students towards academics, probably best emphasized by the increased demand on our library facilities. With Lakehead University's coming of age, the veil of 'a glorified highschool' is finally being shed.

It has been a pleasure and an enlightenment for me to serve the students of Lakehead University in '67-'68 and I wish the new executive continued progress and greater things to come for the '68-'69 year.

The scene at Chippewa Park

One of the highlights of Frosh Week was the Faculty Parties. The Faculty of Arts held their function at the Mount McKay Ski Area while the Faculty of Science and the University Schools combined and held their's at Chippewa Park. The main event of the evening for the Arts' students was the free ride up the chair lift which enabled them to take in the panoramic view of the city lights by night. Entertainment by folk singers and a dance also was on the agenda for the Artsmen. Meanwhile at Chippewa Park the Science and University School students were treating themselves to a dance and to the wonders of the location.

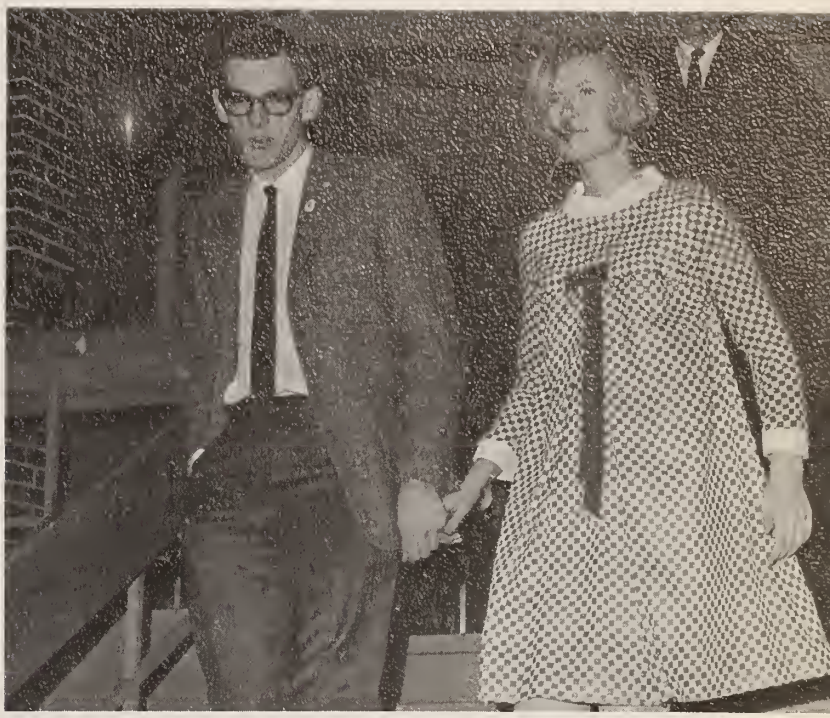
# Eve Frolic



A shower of balloons greeted the New Year.

Out went the old and in came the new, 1968, the new year. To commemorate the occasion students and guests were feated to a gala extravaganza. Imaginative decorations, the music of the Beltones, two go-go girls and a delicious buffet dinner all helped to bring in the New Year.

Picture seven teams of eager and keen University students, gathered at the U at 6:00 a.m. on a frosty January morning. And each team has in its possession a tandem bicycle.

Picture one team pulling off their rear wheel minutes before the race; it seized on them.

Picture another team with gear sprockets that spread apart so that the gears were useless . . .

And still another bunch of students with a front tire with no less than three bulges on it. Their rear sprocket broke at a crucial point of the race.

All this was part of the Pre-Carnival festivities. The 190 mile bicycle ride (attempting to reach the University of Minnesota Duluth campus) was an effort in cementing relations between the two campuses and letting U.M.D. know of our Carnival activities.

Mother nature had other ideas and blanketed the route with over six inches of snow.

Although the cyclists reached only the half way mark all agreed it was quite an experience.

# Photo Directorate

To meet the growing needs of both the Nor'Wester and the Argus, equipment and men were pooled to form the Photo Directorate. Working out of one central base the Photo Directorate photographed events for both Lakehead University Publications and any other campus organization which needed the Photo Directorate's services.

Under the direction of Jed Drew, Photo Director and Jim Zatulsky, Assistant Photo Director, the staff of the Photo Directorate is to be commended for a job well done, as exemplified by the photographs seen throughout Nor'Wester '68.

# Night

The Arts Society's International Night was one of the many features of Winter Carnival 1968. As the title of the evening suggests the night had a flavour of the international to it. Featured were most of the countries of the world which have students attending Lakehead University. Entertainment varied, from Americans singing folk songs to Oriental students performing the Chinese Dance of the Porcelain Spoons.

During the intermission the candidates for the title of Miss Winter Carnival were judged in formal gowns. Miss Dominion of Canada was one of the judges.

# S. A. S. President's Message

Glenn A. Miller
President

Rapid expansion of enrollment and facilities at Lakehead University over the past three years has resulted in tremendous acceleration of extra-curricular programs in both academically and athletically oriented activities. These are the counterparts necessary in creating and maintaining a strong University spirit.

The true campus atmosphere can only be achieved where there is a balance, which varies with the individual student, between academics and athletics. It is the object of the Student Athletic Society to provide, promote and administer the athletic program needed for this balance.

I would like to take this opportunity on behalf of the S.A.S. Executive and Council to thank Mr. George Birger, Mr. Henry Akervall, Mr. William Shannon, and Mrs. Jutta Dusang from the Athletic Department for the time and effort they gave to the S.A.S. and to the students.

This year, provision was made for one of the most extensive and diversified athletic programs ever offered at Lakehead University. A program comparable to those at any larger Canadian University. It was only the unforeseen delay in the completion of the gymnasium complex that prevented the entire planned program from becoming operational.

The staff, the facilities, and the program are established now.

Next year, for those of you returning, an excellent Athletic Program will be operational. My sincerest wish is that you will use and enjoy it.

Glenn A. Miller,
S.A.S. President.

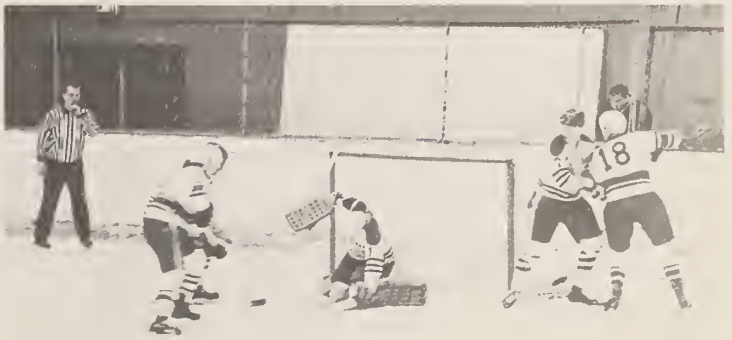
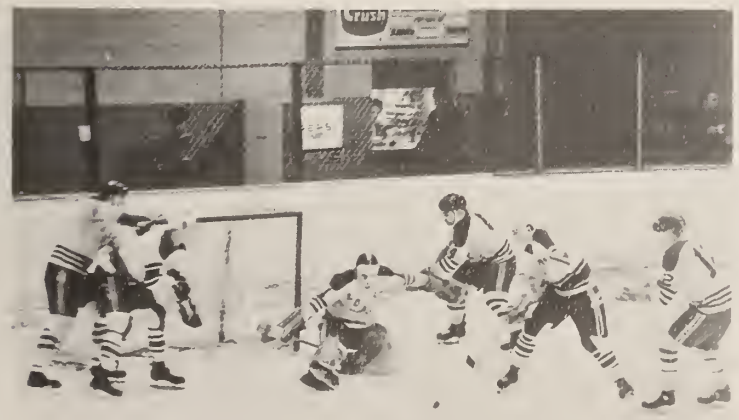
# Intercollegiate Hockey

Clair Battiston helped make up the Nor' Westers strong defensive core.

The end of the regular season of the International Collegiate Hockey Association saw the championship eluding the defending champions the L.U. Nor' Westers. The championship went to the new entry in the league from Lake Superior State College, the Soo Lakers. The Nor'Westers came out of the season with the distinction of being the only team to defeat the new champions. Added to this Murray Smith, second leading scorer in the league secured a spot as a winger on the I.C.H.A. All Star team.





The final score.

# World Hockey Action

Stops like this one by Bamford stopped the Rumanians cold in their tracks.

For the first time ever a Lakehead University varsity hockey team faced opposition from an International calibre team. One of the up and coming teams in world hockey, the Rumanian Nationals posed a great challenge to the Nor'Westers. The threat was met and put down. The University squad with a few T.B.H.A. Senior pick-ups including Coach Akervall downed the Rumanians by the score of 7-3.

Kilgour was the light that sparked the Nor'Westers to victory.

Stefiszyn is foiled again.

# Intercollegiate Squash

The Lakehead University Squash team of Bruce Brymer, Jerry Kishi, Glenn Miller, John Sihvonen, and Coach Dr. G. Ozburn placed second to Osgoode Hall Law School in the Ontario Intercollegiate Championship in Toronto. Each of the members of the squash team played three matches and each lost one for a total of eight points. York University placed third with six points.

# Intercollegiate Golf

Lakehead University won the Ontario Intercollegiate Athletic Association Golf Championship in Hamilton. The tournament was a 36 hole, ten team event hosted by Mohawk College. Each of the ten Universities competing named four golfers to their team, the lowest score of the four man teams to be declared the winner. The Lakehead University team was made up of Tony Marsonet, Rod Ferguson, Bill Hodgson, Dick Battison and alternate Dave Kerr. Tony Marsonet was the low gross golfer on the Nor'Wester team and was only second to a golfer from Waterloo Lutheran University. Tony shot 76-80 on the par 71 Mt. Hope Golf Course. Rod Ferguson had a 160 total with rounds of 80-80. Dick Battison and Bill Hodgson followed Rod Ferguson to round out the Lakehead University total of 646 strokes.

# Men's Nor'Wester Basketball

Short in height, but long on ability, the Nor'Westers won 13 of their 24 games this year — their first under Coach George Birger. Don Holmstrom set a university record by scoring the 1000th point of his Nor'Wester career. An even better season is hoped for next year since all the players are expected back.

**O.I.A.A. CHAMPIONS:** Gary Kunnas, Mike Wren, Brian Nelson, Larry Freeman, Dave Dobbin, Tim Hanrahan.

# Intercollegiate Skiing

For the second year in a row L.U.'s Nor'Wester Ski team captured the Ontario Athletic Association Ski Championship. The team was composed of Mike Wren, Larry Freeman, Gary Kunnas, Dave Dobbin, Brian Nelson and Tim Hanrahan and was coached by Bob Morgan and Tom Morton. The championship was won by a 30 point margin over Northern College with Osgoode Hall in third place. A total of nine other colleges and universities participated in the meet held at the Levack Ski Hills in Sudbury.

In the first race, the Slalom, L.U. placed first, six points ahead of Trent University but the Second race, the Giant Slalom was a complete reversal for the Lakehead team. They had a disastrous second run to place seventh in the race and second in the Alpine Combined behind Trent. The team placed second to Northern in Cross Country. Dobbin and Wren took the Jumping 1-2 to win the championship for the Nor'Westers.

# Curling

The Lakehead University Curling team skipped by B. Andrusco, with L. Eustace Lead, C. Montgomery Second and T. Fry at Third, placed third in the O.I.A.A. Curling Championship at the Terrace Curling Rink in Toronto against several other university teams.

The Andrusco Rink was also intramural champions at L.U. with second place going to the rink skipped by Dave Horne.

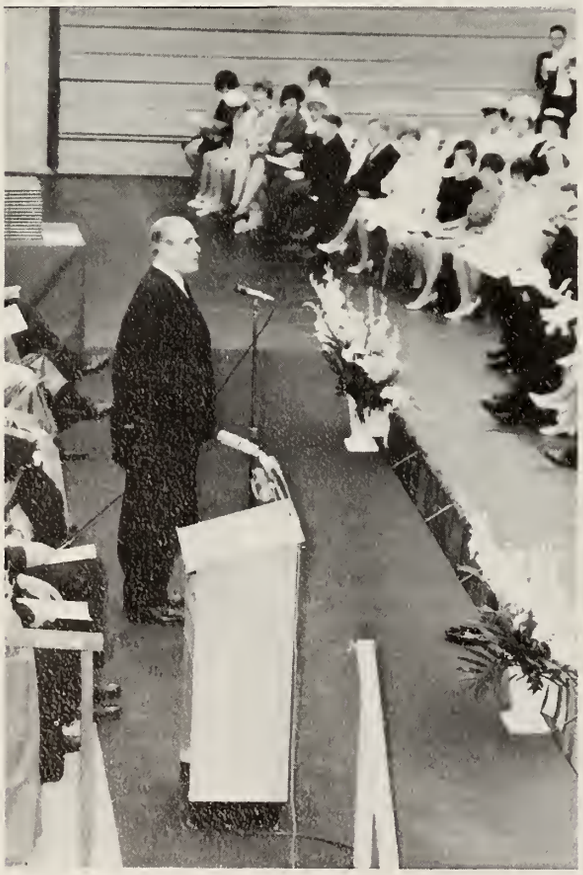
The always present and busy Bob Gude performs his duty in doling out portions of beef.

# Beer and Beef

To place graduating students in the proper mood for the forthcoming major events in their lives, the Alumni Association threw a beer and beef party for them and their guests. Hinds of beef and cases of beer were plentiful and, most important, free to all present. Eating, singing, dancing and drinking abounded as the grads let down their hair as the climax of their university careers drew near.

# Convocation 1968

Dr. W. G. Tamblyn, President and Vice-Chancellor performed the duties of Master of Ceremonies.



Lord Caradon, the Minister of State for Foreign Affairs (left and below) was the guest speaker, telling the graduates that they should develop a fierce hatred of violence.

Convocation 1968 was significant in that it was the first time convocation ceremonies were held on the campus of the university. Over 250 graduates received their degrees and diplomas at the ceremony in the C. J. Sanders' Athletic Building.

The first Master of Arts ever granted at Lakehead University was received by Mrs. Diane Fawcett.

The guest speaker at convocation was Lord Caradon, G.CM.G., K.C.V.O., O.B.E., P.C., the Minister of State for Foreign Affairs and Permanent United Kingdom Representative at the United Nations.

Lord Caradon set the theme for his talk on violence in the world, since graduation exercises paralleled the assassination and funeral of Senator Robert Kennedy. He encouraged all the graduates to develop a hatred of violence, to try and create a better situation in the world.

After the ceremony, a reception was held in the University Centre for all the graduates; parents and friends.

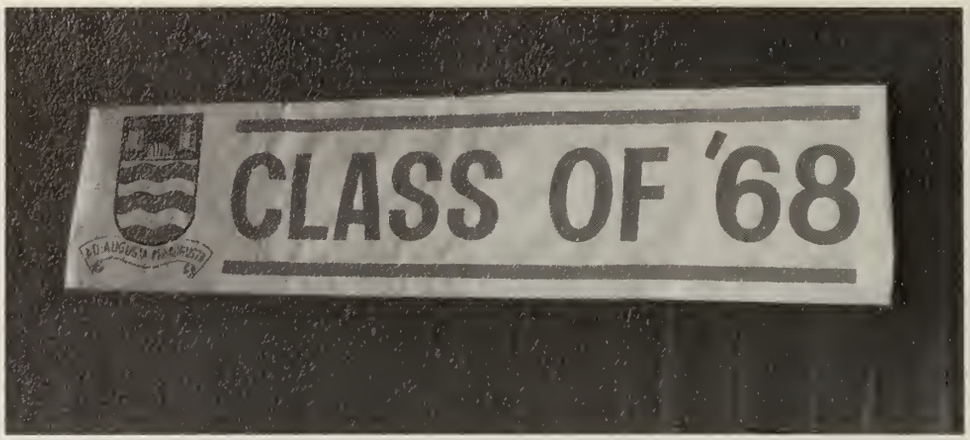
The recipients of the President's Awards come forward to receive their awards.



# Graduation Ball 1968

Dr. G. Merrill (above) the guest speaker reminised about the last few years at Lakehead University, bringing back many memories to the Grads. (Below) The head table.

Lord Caradon brought forth torrents of laughter with the use of his quick wit.

# From the Editor. . .

Just as the university it represents, Nor'Wester '68 had its growing pains throughout the course of the year. But because of the dedication of a few members of the staff they were overcome . . . We have increased our overall size in format, number of pages, circulation and we hope quality.

The members of the staff who did come forward to work, gave up countless hours of their free time and sometimes class time to put out this edition, which when it comes out will probably be leafed through once or twice and then placed on the shelf and forgotten. But wait until that shining black hair of yours starts turning grey. Then when you're looking for something on your book shelf you'll come across an old dust covered edition of your Alma Mater's yearbook. Out of curiosity you dust it off and open it. Immediately you forget about that greying hair and are drawn

into your past, when both you and your unviersity were young. You'll recall voyaging through vast oceans of mud to reach the classrooms, the Athletic Building which never seemed to be completed on time, the wild Winter Carnival, and the controversial Argus. For a while you'll be young again.

That is the purpose of a yearbook. Unlike its brother a newspaper, it is not a current events edition—it is a memory book. If this edition of the Nor'Wester can do this for you, then the long hours of hard work will be worth it.

# Acknowledgements

A yearbook is produced by the students for the students. However, being limited by time, facilities and sometimes the technical knowhow, we, just like any organization must rely upon assistance from other sources. Therefore, we would like to express our sincere gratitude and thank those persons listed below, and any others we may have inadvertently omitted, without whose assistance, the production of our book would have been impossible.

| | |
|---|---|
| Andrew's Photography | Photographs of the Frosh Queen and princesses, Winter Carnival Queen and princesses, Yearbook Staff, club executives and the inside liners. |
| Lorne Delinsky | Colour Photo of the University crest and many other valuable photographs. |
| Gerry Hashiguchi | many valuable photographs, especially the dedication page. |
| Tom MacLeod | Assistance with the title pages. |
| Chuck McOuat | technical information concerning the University and many valuable photographs. |
| Pouncy's Studio | Graduate Photographs. |
| Stan Wojick | Cover design. |

. . . and also a very special thanks to Jean Jordan, Jed Drew and the Photo Directorate, for their unselfish giving of many long, hard hours in the production of this yearbook. Without their assistance our goal could never have been achieved.
