To
David Morgan**

Mr. D.W. Morgan

Born in Montreal, Mr. Morgan has spent the most recent years of his life in the Lakehead. He received his B.A. from McGill University in 1948 and his M.B.A. from Harvard in 1950.

Before coming to Lakehead University, he was manager of the Ottawa store of Henry Morgan & Co. from 1951-'56 and manager of Dominion Securities Corporation from 1959-'62.

Mr. Morgan came to Lakehead College in 1960 and spent two years as a first year Economics lecturer. In 1962, he became Bursar of Lakehead College. During Lakehead University's recently successful development campaign, Mr. Morgan has served in the capacity of Director of Finance from 1965-'67 and Director of Development from 1968-'69.

David Morgan is a man who is very much aware of community problems and seeks to be involved. At present, he is Chairman of the Lakehead Board of Education, Chairman of the Board of Directors of St. Joseph's General Hospital, Director of the Advisory Board of the Salvation Army, and a Director in the Mid-Canada Development Corridor Foundation.

In August, Mr. Morgan leaves Lakehead University to become an Economics Master of Confederation College. It is with regret that we say farewell to a friend and wish him the best of luck for the future.

Message From The Chancellor

Dr. William J. Cory, the famous Master of Eaton, once said:

“You go to a great school not so much
for knowledge as for arts and habits.
For the art of entering quickly into
another person’s thoughts.
For the art of working out what is
possible in a given time.
For taste, for discrimination, for
mental courage and mental soberness.”

I sincerely hope that you, who are leaving this University, will have become familiar with the “arts and habits” of which Dr. Cory speaks. In these days of violence, I hope that you will have learned the meaning of the expression “graduated terms” and “mental soberness” because such an understanding will be invaluable in the years ahead. Finally, we are proud of our University and its possible influence for good wherever our graduates go. You, as graduates, will carry the name of Lakehead University with you, and the University’s reputation is dependent upon your future.

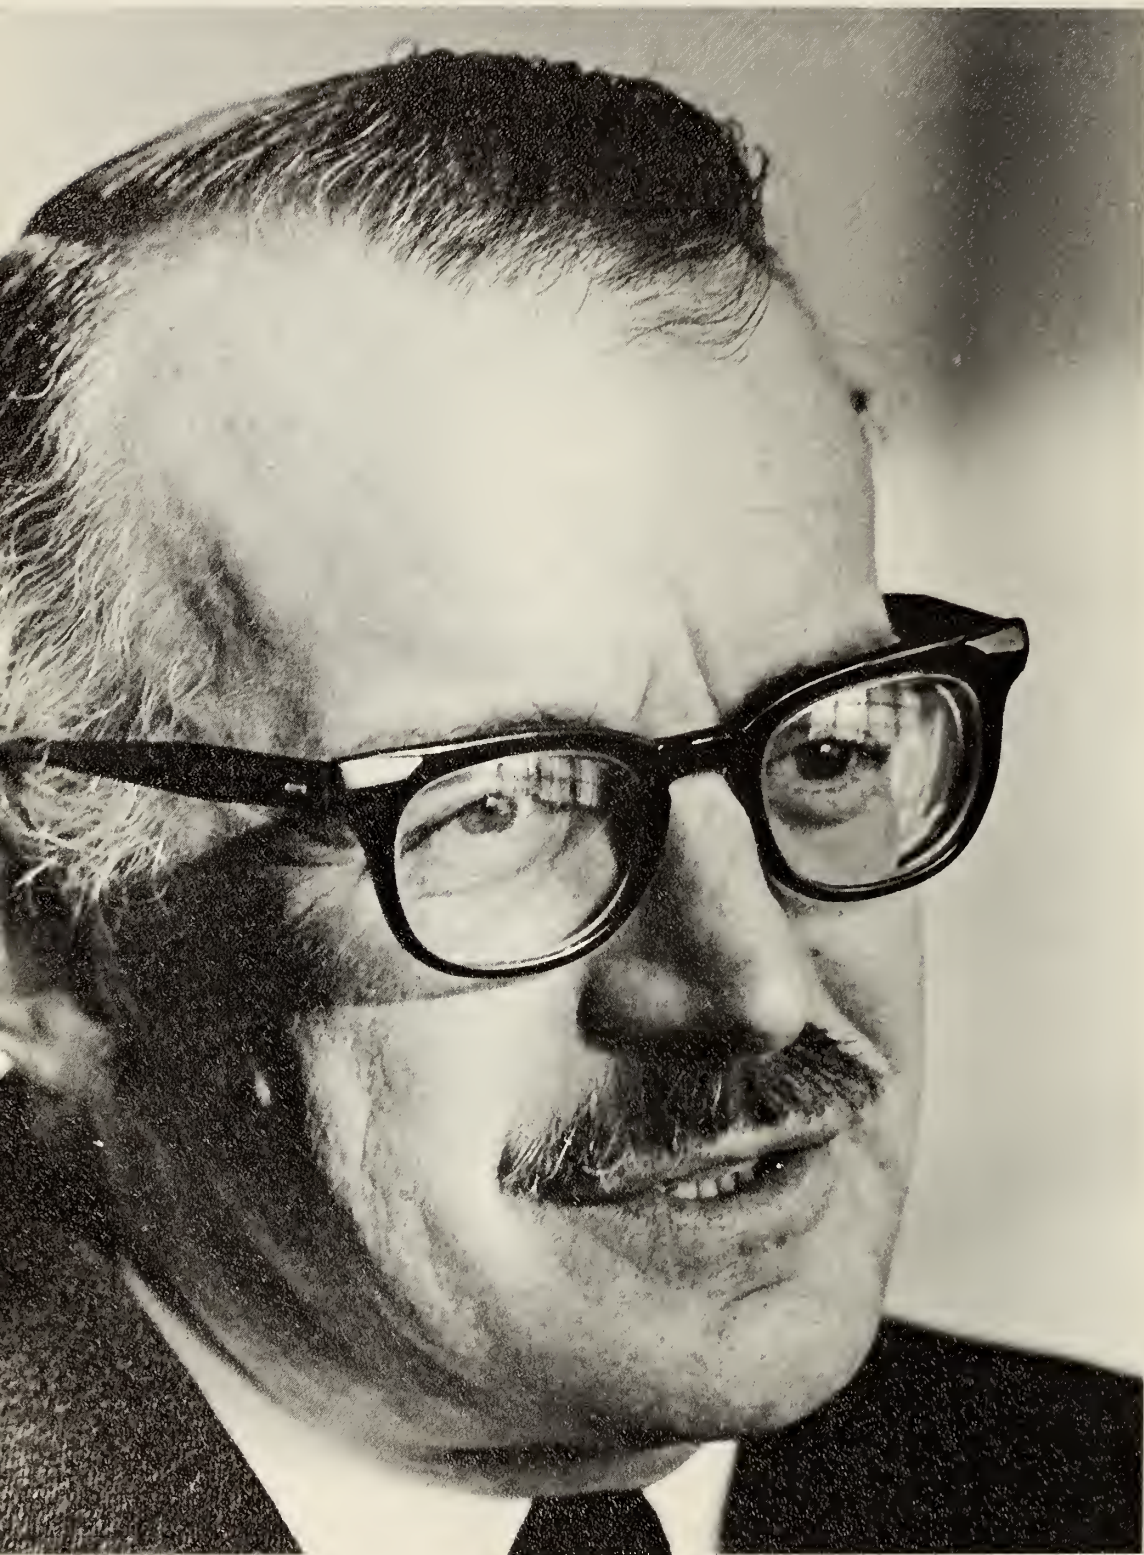

Senator N.M. Paterson
Chancellor,
Lakehead University

THE SENATE
CANADA

Senator N.M. Paterson

Dr. W.G. Tamblyn

Message From The President

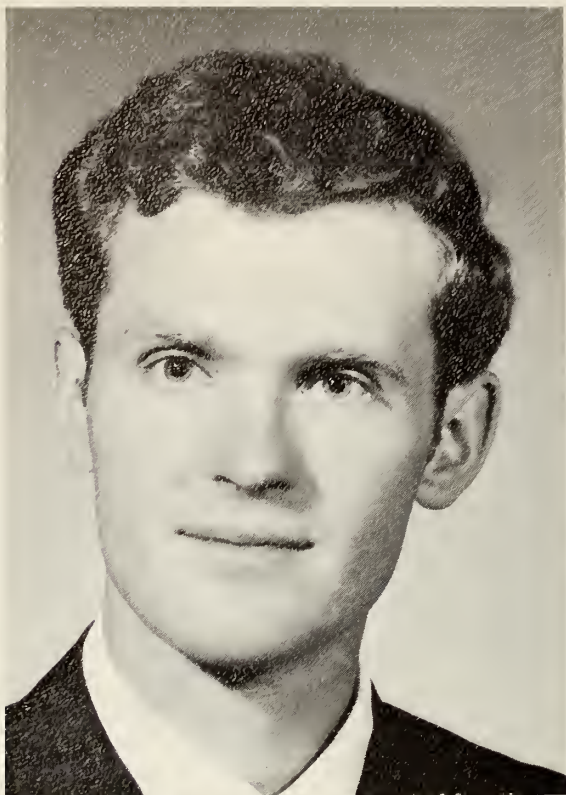

A yearbook, when looked at in the years hence, becomes a symbol of a definite period in your life -- a period in which many attitudes were formed and many vital decisions were made. This particular period has been one of almost unimaginable growth and change. There has been little stability either within the university or within society generally. And yet I believe that it is the ambiguities and the uncertainties within society itself that have contributed more to the unrest among some students than the conditions which they have found within their university community. In fact, the former is reflected in the latter.

It is somewhat ironic that the challenge which faces today's graduate is one of orientation: he is immersed in an unprecedented demand for change at a time when a clear vision of the "new order" is most illusive. While more familiar than his father with the possibilities of technology, he must employ great creativity in forging the possible and the practicable out of the potential which he has inherited.

Although the time that you have spent at this university has been one of incessant social turmoil, both internally and externally, I hope that this has created in you an attitude of challenge rather than one of despair. Whatever your future endeavours might be, you will be called upon to think critically and constructively. It is our sincere hope that this university has assisted you in developing these capabilities so that you are better prepared to meet the challenges that lie ahead.

We wish every success for the future.

In Memoriam

Thomas F. Macleod

On August 19, 1968, Thomas F. MacLeod ('67) suffered a seizure and died without regaining consciousness.

Tom moved to Fort William with his family in 1961, and he graduated from Fort William Collegiate Institute. While at Lakehead University he was active in the Camera Club, the Yearbook, the Arts Society Executive, and was Chief Proctor during the first two years of the proctor force's existence. He was also a contributor to the Argus. Tom received his general B.A. in English and History in 1967, and at the time of his death he was completing his Honours degree with the intention of continuing for his Masters degree.

The yearbook staff joins the rest of the University community and his family in remembering the loss of a valued member and a good friend.

Peter McCormack
A.M.S. President

Alma Mater Society

President's Message

Being President of the A.M.S. is a challenge if one accepts the challenge. I often wondered over the year if I really had done so. The temper of the Council activity reflected my management of Council affairs, and it consisted of intermittent sallies of politicization and social awareness countered by significant periods of indecision and the inevitable but often necessary process of self-examination and analysis.

Council suffered somewhat from the feeling that progression must be the indicator of the value of an action. This is not generally so, for circumstances and events may be intrinsically good. A universal standard will not do for the measurement of the validity of human action until the universal standard is agreed upon by all. Needless to say, such agreement is a lot to ask of twenty-five university students, and certainly there was no evidence of it last year.

I view my last year in A.M.S. with a certain degree of amazement. I was fiercely determined in my job. In light of this, it is a wonder to me that I could have made as many mistakes as I did, and at the same time, it is distressing to think that some of the mistakes made were of a purely academic nature. If one can perform well academically in university student government, then that is at least good enough. The question of university in society is one of much broader scope, and one which I am not prepared yet to resolve personally.

If these remarks seem somewhat pessimistic, it is only because I feel the weight, even now, of the responsibility involved in a student government office. One cannot jump into the fore unconvinced about his position; if he does, then he will be buffeted about by those who are heading in a definite direction. While I was and am certain of my ideas, I think perhaps I failed to elucidate them well. This does not make me a failure; however, it stands as a drawback which I shall continue to regret for some time, and from which I hope my successors will remain freed.

S.A.S. President's Message

I have extremely enjoyed this past year as President of the Lakehead University Student Athletic Society. I feel our programme has proceeded fairly well as was evidenced in the immense growth in our spectator sports and general over-all increase of school spirit. This is very important as nothing is better or more conducive to having a sound University image across the country than a sound athletic programme and this has been displayed through our resounding success in most athletic contests this year.

In the major inter-collegiate sports such as hockey and basketball, we had very good seasons with an extremely active turnout by all students. This trend, hopefully, will continue, and I am sure it will, along with the calibre of the sports involved.

At this time last year I stated that we would strive even harder to improve athletics especially in the Ontario Inter-Collegiate Athletic Association championships. This year we won four championships while placing second, fourth, and fifth in others. It was rather interesting that in the skiing championship where we finished second, we were beaten by a team of Lakehead graduates now attending law school at Osgoode Hall. We also competed for some Canadian championships in sailing and swimming and here we placed almost as well while maintaining Lakehead University's athletic image.

The S.A.S. Executive and Council along with the Athletic Department were tremendous this year and there was a great deal of co-operation and help from all people involved. This is where the year was most successful, and why the student has been able to participate as fully as he or she did. Next year's executive looks very good, and along with the addition of the S.A.S. Assistant Intramural Director, should continue to promote athletics to an even higher level.

In concluding I would like to thank everyone who participated and competed in our athletic programme, thereby enabling me to have a wonderful and successful year, as well as making athletics so successful for Lakehead University.

Doing Our Own Thing

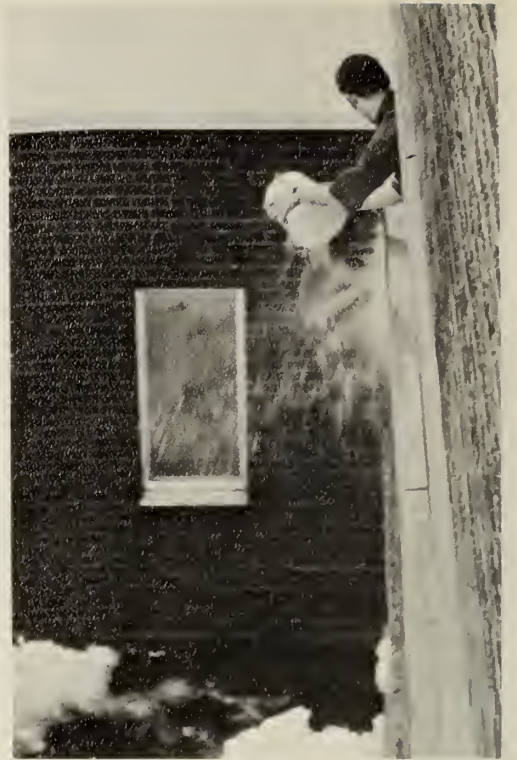

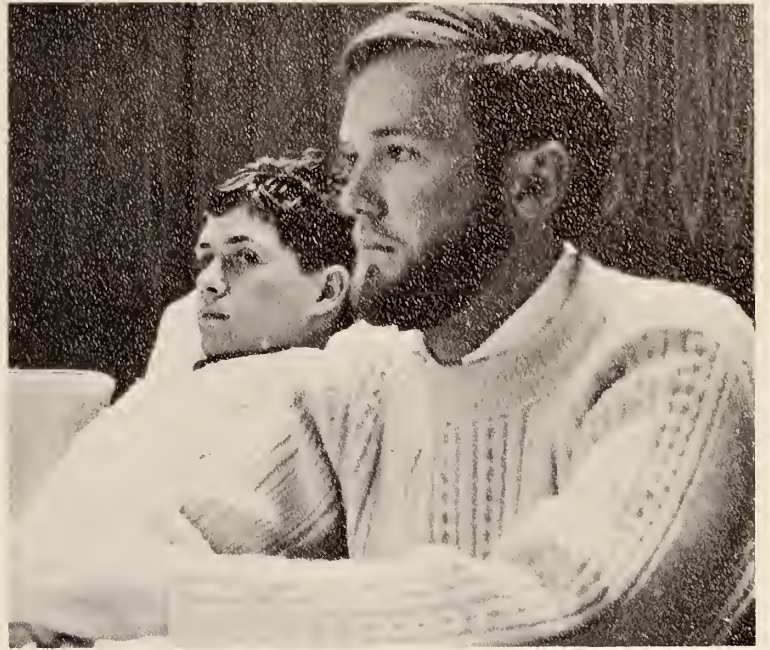

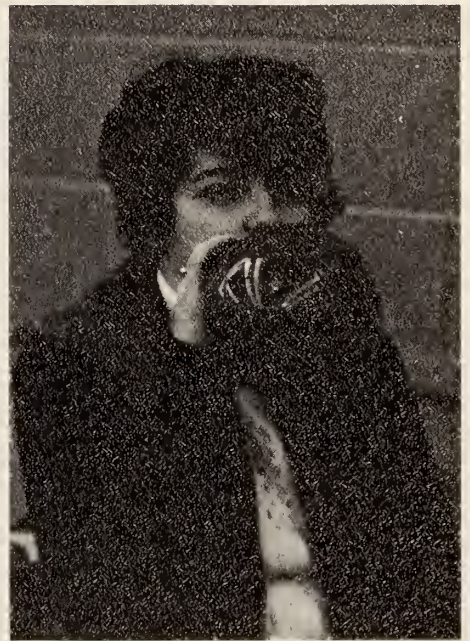

Nor'Wester

Staff

Nor'Wester 1969 got off to a slow start this year as last year's staff had trouble in finding a person with few enough brains to take the job as Editor-In-Chief. For this reason some of the activities that you remember from the beginning of first term have not been represented.

To some, a yearbook is just another piece of junk to be stored away and forgotten but to a few of us, it will bring back many happy memories of our years at Lakehead University.

We, on the staff, realize that this may not be the best but we tried to make it worthwhile. Without the help of the photographers, Don Bergman and David Lawrence and the copywriters and layout artists, Maureen Broadhurst and Gail Keffer this year's Nor'Wester would never have existed. To all the others who gave up even one evening of their time in order that Nor'Wester '69 could be published, we thank you.

Acknowledgements

The staff of Nor'Wester '69 being fairly small, we were forced to rely on many people for assistance. We would like to express our sincere gratitude to those listed below and to any that we have inadvertently omitted.
